

Odionye Jovita

Warri, Nigeria | odionyejovy@gmail.com | +2348059307739 | GitHub | LinkedIn | Portfolio

Profile Summary

Backend Developer passionate about building efficient, scalable, and secure applications. Skilled in Node.js, Express.js, and MongoDB, with hands-on experience designing RESTful APIs, managing databases, and integrating third-party services. Strong collaborator with a focus on clean code, performance optimization, and solving real-world problems through technology.

Technical Skills

Languages & Frameworks: Node.js, Express.js, JavaScript (ES6+), TypeScript

Databases & Tools: MongoDB, PostgreSQL, SQLite3, Prisma, REST APIs

Other Tools: Git & GitHub, Postman, Figma, Render, Netlify, VS Code

Soft Skills: Problem-solving, Communication, Collaboration, Documentation

Experience

Backend Developer | 85 Gifts – Remote | Jul 2024 – Present

- Developing and maintaining vendor APIs using Node.js and Express.js for a gift marketplace platform.
- Designed database schemas with MongoDB and Mongoose to handle vendor and product data efficiently.
- Implemented authentication and authorization using JWT and middleware to secure API routes.
- Collaborated with front-end teams to integrate APIs and resolve deployment issues on Render.

Volunteer Backend Developer | MDTH (Modern Digital Tech Hub) – Remote | Mar 2024 – Present

- Contributed to backend development for open-source projects improving digital access for local communities.
- Wrote RESTful APIs and integrated database models using Node.js, Express, and MongoDB.

- Worked in an Agile team to deliver features through collaborative sprints and version control.

Auditor (Tech-Driven Operations) | Jbees Fastfood & Lounge – Warri, Nigeria | Jun 2024 – Jan 2025

- Developed automated Excel-based tools for variance tracking and reporting.
- Analyzed audit data and ensured compliance with operational standards.
- Improved audit processes by 30% through better digital record management.

Quality Control Assistant | Enserve CNPC Seismic Operations – Asaba, Nigeria | Mar 2023 – Feb 2024

- Managed digital inventory logs to ensure accurate supply chain records.
- Monitored food quality and safety standards using digital checklists and data analysis.

Backend Developer (Remote) | Dhinma Group – Lagos, Nigeria | May 2021 – Nov 2021

- Built basic backend logic for internal tools and analytics dashboards.
- Conducted web traffic analysis and implemented simple data tracking systems.
- Documented backend processes and contributed to API improvement discussions.

Administrative Assistant | Compass Educonsult – Lagos, Nigeria | Mar 2015 – Dec 2017

- Digitized internal records and improved workflow efficiency through Excel-based systems.
- Assisted management with scheduling, document processing, and workshop organization.

Projects

Auditree | Node.js, Express, MongoDB, EJS, JWT

Developed a SaaS platform for auditors to record and analyze eatery data securely. Implemented role-based authentication and protected routes for different user levels. Designed database models for sales variance and financial performance tracking.

Submissio | Node.js, Express, REST API, MongoDB

Built an API-based form builder allowing dynamic form creation with webhook support. Designed and deployed RESTful endpoints with validation and data storage.

StreamHive | Node.js, EJS, Tailwind CSS, Express.js

Created a responsive web app for managing and streaming digital content. Integrated backend APIs to handle uploads, user sessions, and data caching.

Education

B.Sc. (Ed) Computer Science Education – Enugu State University of Science and Technology (ESUT) — 2024

A' Levels (Direct Entry Program) – Integrated Development Konsult, Awka — 2018

Senior Secondary Certificate (WAEC) – NikkyB Comprehensive Secondary School, Lagos — 2014

Certifications & Learning

Node.js Backend Development Bootcamp – Udemy

Git & GitHub Version Control – Coursera

ALX Software Engineering Program (Ongoing)
